ANNOUNCEMENTS.

CONGRESS.
The friends of Rowland C. Burns beg to announce that he is a candidate for Congress in this district in 1902, subject to the action of the Republican party. He believes that a mountain man is as good as any one.

We are authorized to announce James N. Kehoe, of Mason county, as a candidate to represent the Ninth district in Congress, subject to the action of the Democratic party.

Justice James A. O'Gorman of the State Supreme Court, has been elected Grand Schem of Tammany Hall in New York.

A mysterious explosion occurred in the Frater coal mine, at Coal Creek, Tenn., Monday. All the men who were working in the mine were killed save one who was blown out of the shaft by the force of the explosion and who is fatally injured. The number of men in the mine is not known but the death list will range somewhere from 175 to 250.

A. S. Berry and D. Linn Gooch have been officially announced as candidates for Congress in the sixth district before the Democratic primary to be held on June 23, Cliff Nadaud, of Covington is also a candidate.

Joe Pugh former Mayor of Richmond and the powerful Covington city machine announce themselves in favor of Berry as against Gooch of their own city.

Former President Grover Cleveland and former Commissioner of Internal Revenue, J. M. Miller, of West Virginia, with several members of Congress, have accepted the invitation of Representative D. L. Gooch, of the Sixth Kentucky district, to spend several days on a fishing trip near Mr. Gooch's country home, Gooch Island, Greenbrier river, West Virginia, during the middle of June.

If every fellow who contemplated committing murder knew that the punishment prescribed by law was reasonably certain to be meted out to him, he would decide to forego the gratification of his savage desires. But so long as it is such an easy matter to escape all punishment, those criminally inclined give free rein to their passions and commit all sorts of heinous crimes without fear of punishment. It is time for the people to rise up and bring about a new order of things in this section.

There is an aching and tired feeling; the liver, bowels and kidneys become sluggish and inactive; the digestion impaired, with little or no appetite, no ambition for anything and a feeling that the whole body and mind needs toning up. The trouble is, that during winter, there has been an accumulation of waste matter in the system. Herline will remove it, secure to the secretion a right exit, and by its tonic effect, fully restore the wasted tissues and give strength in place of weakness. 50c at A. M. Hughes.

A HAPPY HOME

Is one where health abounds. With impure blood there cannot be good health. With a disordered LIVER there cannot be good blood.

Tutt's Pills
revivify the torpid LIVER and restore its natural action.

A healthy LIVER means pure blood.

Pure blood means health. Health means happiness.

EAST LIVERPOOL, OHIO.

While this city does not shine with resplendence like the Seven Cities of Cheloa, yet as it stretches far away to the south west with its spires and towers pointing skyward, a feeling of rapture and grandeur thrills the spectator. While Ohio ranks among the first in manufacturing, it is also well adapted to grazing and dairying, and south of the main water shed and along the fertile river bottoms is the richest corn-growing region south or west of the Mason and Dixon line.

While the city of Canton is famous as the home of our martyred president, Cleveland the rendezvous of the bloody handed anarchists, Cincinnati the queen city of the west, Columbus the State Capitol, Marietta as the oldest town in the state, and last, but not least, Liverpool is the most extensive manufacturing and business center of the state. The beautiful and broad bosomed Ohio river, coming from the smoky regions of Pennsylvania, flows in its winding course like a serpent and coils around Liverpool, thus readily supplying all wants and demands for water. This is truly a good place to make money, yet it takes energy and nerve. Some come here expecting to grow rich suddenly and return home to dazzle the eyes of their people, but it is in the days of Captain John Smith, who taught the "gentlemen" to swing the ax and decreed that only those who worked should eat.

Many people from Kentucky are here, and all seem to be very prosperous.

Alex Chaffin has been here four years and has been in active business as real estate dealer and contractor and builder. Mr. Chaffin has accumulated a snug fortune since he has been here.

The great dirt mill, commonly known as the "graveyard" is in full blast. Several of Kentucky's boys are employed at this dreadful concern. It is said that thirty-six employees have met their death in the last two years, by inhaling dirt dust and an acid which originates in the grinding of boulders, etc. Many have become horrified and quit.

Sam Salyers, while working at the dirt mill, got dust in his eye and has been confined to his room for five weeks. His doctor thinks the sight will not be lost. Sam also got robbed of \$18. The thief stole into his room and took his money.

It is marvelous to see how fat Jim Sparks and Sam Puck Vinson are getting.

Ed Chaffin is looking so thin and emaciated that the doctors are keeping one eye on him.

Rube Curranette is taking the anti-fatal treatment.

Bozzer Carey says he does not like up here but he doesn't want the Louisville people to know it.

Frank Herrol is at Wiley Burchett's confined to his room with homesick fever.

There are not many negroes here but republicans are numerous indeed. Dagones are very plentiful.

Sam Jobe did not move here as recently reported, but was here a few days on business.

Miss Maude Burchett is saleslady at a large store on Main street and Chaffin alley.

Mrs. John O. Burchett is very ill of fever.

Ye scribe will take steamer Queen City tonight for Ky.

Kentucky Colonel.

CURES WHEN DOCTORS FAIL.

Mrs. Frank Chisholm, Patterson, La. writes June 8th, 1901. "I had malaria fever in very bad form, was under treatment by doctors, but as soon as I stopped taking their medicine the fever would return. I used a simple bottle of Herline, found it helped me. Then bought two bottles, which completely cured me. I feel grateful to you for furnishing such a splendid medicine, and can honestly recommend it to those suffering from malaria, and it will certainly cure them." Herline is a bottle at A. M. Hughes.

Several new residences are being built. We are not preparing for any boom, because we know our town will come sometime in the sweet-by-and-by. We have as much natural wealth as any other county East of Pennsylvania, and are too smart to allow towns to excite us in such a manner as to cause us to fool it away. Your correspondent is preparing a pamphlet entitled Big Sandy Resources and while every word will be true there will be some eye-opening facts given to the public. X

We have been informed that the contracts have been let for the building of the C. & O. R. E. extension up the Big Sandy. We also have information that the "Sea Board Air Line" is still active beyond the Breas. Locks and dams and two railroads for Big Sandy. Let them all come. There is more coal here than they can all carry out in a hundred years.

The Pikeville Select School closed Wednesday after a successful year's work.

The Pikeville Collegiate Institute closed Thursday night with an interesting exhibition of songs, drills, marches and physical exercises.

The town will sadly miss the young ladies and gentlemen who have been attending these schools. Their behavior while here both in school and out has been remarkably good. We would gladly welcome them back next year.

Mr. Brown Gillespie of near Iynton, Ky., arrived here Saturday to visit his sick mother.

Roscoe Vanover has been quite sick for several days, but is now better.

Dr. L. C. Richmond is attending Court at Paintsville this week.

Police Judge William T. Meade has returned from a business trip to Pikeville.

Mrs. Luana Brown has been very sick for a few days.

Six months ago some one was being tried every day for the ill-fated sale of whiskey, and at least one dozen people were selling in the town. Now there is not one drop of the fluid being sold in the county and we have not seen a drunkman for over a month. Like that great rich country where Rath glens in the fields with Boz some good thing will come out of Inez yet.

Big Court is in session here, Judge Hensley on the bench and Mr. Byrd for State.

Elliott Arnett for killing Boss Salyers got five years.

John Howard, for killing Pickensimer is now on trial. He is being defended by F. A. Hopkins as chief counsel.

The many killings in Magoffin result in the main from strong drink. A whole-sale liquor house in Salyersville, makes it possible for blind tigers to get a convenient supply throughout the county. Whenever the officers really mean it, gambling and drinking will be a large anti-shamable.

A large majority of both parties deplore present condition, but partisan politics stand in the way of reform. Why not nominate a reform ticket representing both parties and try one term of moral, temperance men?

WINIFRED.

Ed Keeton kills a Young Man Named France in Magoffin County.

Farmers, in some instances, have had to quit plowing and wait for rain. Cuts are not growing to do any good, and grass is doing but little good.

Henry Daniel returned home Wednesday to attend a meeting of the Mission board of Enterprise Association of Baptists last Saturday and Sunday.

We notice Rev. James Wheeler and Isaac Ferguson, of Morgan county, in this section.

On Sunday while Rev. Wheeler was preaching, some of the boys became altogether too noisy, creating considerable disturbance (even disturbing the preacher) Squire Dorton, our wide-awake Magistrate, was on hand, and we learn that he arrested four of them. One has had his trial and was fined and imprisoned. We think it time that young people should learn to behave themselves at church. We would ask the officers of Lawrence county and our officers near the line, to put down crime. Whiskey is being sold in Lawrence near the county line, and the boys think they can take advantage of our officers. They can get their whiskey, get drunk, come to church, cause trouble, then escape to Lawrence and get away from our officers. We are not writing this by way of complaint, but only asking Lawrence to help in keeping down crime.

W. F. Spradlin, of Bonanza, was in our midst yesterday.

We have learned of another killing in Magoffin county. Ed Keeton and a young man by the name of France met and asked each other about their pistols. It is said that Keeton pointed his pistol at France's breast and said, "If I was to do it I would do this way," shooting him near the heart. France then shot at Keeton, but without effect. They have Keeton in custody.

I was much afflicted with sciatica, writes Ed. C. Nud, lowaville, Sedgwick Co., Kan., "going about on crutches and suffering a deal of pain. I was induced to try Ballard's Snow Liniment, which relieved me. I used three 50c bottles. It is the greatest liniment I ever used; have recommended it to a number of persons, all expressing themselves as being benefited by it. I now walk without crutches, able to perform a great deal of light labor on the farm." 25c 50c and \$1.00 at A. M. Hughes.
